

## 3WheelMotion

### The Bones

I hit the three wheel motion  
I'm guttin' swishers while I'm mixin' up the potion  
My rims like thorns always stay pokin'  
Bath full of cash got lungs full of roses  
These white kids don't impress me  
On something one week off that next week  
Black skully no shirt gold lynx  
I'm the best cracker rapper flow give 'em cold feet  
Drown in the bass  
Drown in my ways  
The water gets deep and my mind starts to change  
Actin' like you in it to win it but you just in it for pictures  
See just in it to talk about it  
Just it in it to picture yourself on stage givin' crowds what t  
hey need to get wild get get  
Born in the day I was raised in the night  
See young fuckin' ghost good luck tryna fight me  
Always with the team you know where to find me  
Always seems to be the white kids that don't like me  
Ain't about race no it's all about sound but my mind starts tal  
king and it's speakin' out loud  
Thinkin' out loud I'm just talkin' to myself should I give the  
game life should I give the game death
