

BlancoBenz

The Bones

Jumpin' outta bed with a quest
Gotta go fulfill this destiny
I'd agree any you guys would just copy and paste what's left of
it
Cold press my juice, revitalized
Where there's magic, there's sesh
I've said it a hundred times
I reside on the line before the other side
I feel confined to this life, I'm tryna die tonight
In cold night, I'm going out

Ride in the BlancoBenz
Motherf*ck your f*cking friends

Posted on the f*cking tens
Step in, lose a f*cking limb
5% on the tint
Live when we hit the street
Child motherf*ckers been jockin' this [?]
p*ssy push your wig back
Get your f*cking bitch snatched
In a different bracket, what you know about this tax?
Quickly hit the dispatch, on your whole team bitch
I could show you violence that you never could've dream, shit
