

## Hot Rod Teen

The Bones

I've been thinking about you  
And the times we've had  
Yeah I've been thinking about you  
Now times are bad  
I was satisfied when your V8 purred  
Hey baby, you looked so good  
Spooky flames on your hood

I miss you so  
I want you so  
You rolled away  
And I let you go  
Just keep on rolling

I changed your oil last week  
But it did no good  
When I took you out last night  
Your engine blew

I miss you so  
I want you so  
You rolled away  
And I let you go  
Just keep on rolling

Gave me the girl of my dreams  
I took her for a ride  
And now that you are gone  
My life's began to slide

I miss you so  
I want you so  
You rolled away  
And I let you go  
Just keep on rolling

I was thinking about you - What can I do  
I was thinking about you - What can I do  
I was thinking about you - And the Times we've had  
I was thinking about you - Now times are bad

I miss you so  
I want you so  
You rolled away  
And I let you go  
Just keep on rolling

I've been thinking about you
