

Specimen 32

The Bones

Once she was my leathergirl
My one desire Julie was alive
Motorcycle accident, cracked her lovely face and she died
I brought her back to life, I gave her Trioxin
She opened up her eyes and wondered where she'd been

Out of the lab and back in to my heart
Julie walker's still my violent girl
Pierced herself in lips and tits
Spiked the forehead in the underworld
The Riverman got killed, shot right in the head
Echoes of the bullet, the underworld turned red

Julie my girl in the zombieworld
Caught in a cage, oh god I miss her
Julie my girl in the zombieworld
Specimen 32 I want her
Julie my girl in the zombieworld
I want it to be just like before
Julie my zombiegirl I want her

We got away, just to get caught
The army took my girl away from me
They took her in for a million tests
I had to get inside to set her free
I searched the army lab, got her out of the cage
Julie and I together at last
Together in the flames....

Julie my girl in the zombieworld
