Spit It Out

The Bones

With a loaded gun, second to none
A taste of hate in your mouth
Well take a look around
Just throw it down yeah
Two tons of dynamite
You go for this city of shit
Well take a look around

Another knock-out trip
Another burning bridge
Another full tilt non stop, smashing hit
Just spit it out and get right to it now
Blackout fights for glory nights
Time to face the final battle
Spit it out, just get right to it now

To tough to die, at the speed of light
You go like a 50 ton tank
Smash it all around
Just throw it down now
So indestructible
A bulldozer blackout tonight
Just take a look around

Another knock-out trip
Another burning bridge
Another full tilt non stop, smashing hit
Just spit it out and get right to it now
Blackout fights for glory nights
Time to face the final battle
Spit it out, just get right to it now

Well number one second to none
The kamikaze engine runs
Take a look around yeah, throw it down now
So indestructible
A bulldozer blackout tonight
Well take a look around

Blackout fights
Glory nights
Another full tilt non stop, smashing high
Spit it out, just get right to it now
