

The Chevy Devils

The Bones

Whatever wrong or right, we're gonna ball tonight
So just cut the crap, come on!
Well ain't headin' home until the whistle blows
Yeah shove that shit, let's go!
Let's twist! Let's shout!
Let's stomp! Pass out!
A race with the headlights off
We're pumpin' gas and kickin' ass
Let's punch it and have a blast

Another shot of sin, well gonna let it spin
Like a rattlesnake in heat
Well full equipped for a bad, bad trip
A speeding, mean machine
Strike one! Strike ten!
Pass out! Again!
Another race with the headlights off
Let's floor it until Judgement day
So long from a party in flames

Come on baby, let's go wild
Fighting fire with gasoline, alright!

Whatever wrong or right, gonna ball tonight
Stuck at the point of no return
Well, living fast, living hard
Just stomp it and let it burn
From bad to worse
This world so cursed
A race with the headlights off
Well, kickin' ass 'til Judgement day
So long from a party in flames

Let's go! Let's go!
Let's go! Let's go!
Let's go! Let's go!
Let's go! Let's go!
