The Bones

Was that the time we had together, how is it now?  
Don\'t wanna live like this forever, i need to find out  
Whatever happened, where did i go wrong?  
I opened my heart for you and then you were gone

There is always something unpredictable  
Was it something i said, what did i do?  
Feelin\' blue, it\'s all because of you  
You left me cryin\', left me all alone  
Now i\'m sitting and staring at the phone  
Feelin\' blue, i fell in love with you

Can I feel like you respect it  
My way and my life  
We talked about the future, i didn\'t see it right  
I thought we both connected, well i guess i was wrong  
You fucked with my mind, treated me unkind, left me behind

There is always something unpredictable  
Was it something i said, what did i do?  
Feelin\' blue, it\'s all because of you

You left me cryin\', left me all alone  
Now i\'m sitting and staring at the phone  
Feelin\' blue, i fell in love with you

There is always something unpredictable  
Was it something i said, what did i do?  
Feelin\' blue, it\'s all because of you

You left me cryin\', left me all alone

Feelin\' blue, i fell in love with you
