

WhenWasTheLastTime

The Bones

I don't wanna figure out that I've been on my own
I don't want it anymore to roam around alone
Waiting around for you to come but know you never show
Tryin' hard, I'm holdin' on, I don't wanna let go
Don't need a vest, no
I'm poppin' your head, hoe
I wanna to see what's on your mind and let it out export
Swingin' the rover, speakin' to no one
Thinking about you, I'm just thinking it over

Every night, every day
You're on my mind, what can I say?
Every night, every day
You're on my mind, what can I say?

When was the last time that you thought of me
When was the last time you were who'd you thought you'd be
When was the last time that you thought of me
When was the last time you were who'd you thought you'd be
