

# Automatic

The Bonfyre

Say what you mean  
You ain't gotta play games with me  
It's automatic, you know it's automatic  
Say what you mean  
You ain't gotta fake shit with me  
It's automatic, know it's automatic

Now I'm way too grown to be shy around you  
Other girls like to chase but that's not what I do  
Since you say you the man, can you be there when I call?  
Just do your best

I don't mind to be honest  
If you don't know everything  
Put your hands on my body  
Let you kiss on this all day, yeah

Say what you mean  
You ain't gotta play games with me  
It's automatic, you know it's automatic  
Say what you mean  
You ain't gotta fake shit with me  
It's automatic, know it's automatic

Never been one to trip but for you I might fall  
And I hope you're the type that can handle it all  
Take your time, ain't no rush just don't make me wait too long  
No baby

I don't mind to be honest  
If you don't know everything  
Put your hands on my body  
Let you kiss on this all day, yeah

Say what you mean  
You ain't gotta play games with me  
It's automatic, you know it's automatic  
Say what you mean  
You ain't gotta fake shit with me  
It's automatic, know it's automatic  
Whoa ooh aah
