

Over And Over

The Boomtown Rats

Look at you now, don't you look good
You're on a tip tonight and
Don't be afraid, no, don't be scared
We're making the world tonight and
I felt a kiss ring out when peace broke out last night, yeah
I felt that shock across my body, going

Over and over, and over and over again
Shot down like before
And Over and over, and over and over again
Another blank that's scoring
I wouldn't mind, I sleep in a little while now
Yes I stay awake, and I sleep with you

Throw me a line, give me a smile
And I'll spell it out for you and
We're better than this, you know that it's true
Loving the world spin 'side you

And I felt that kiss ring out when peace broke out last night,
yeah
I felt the shock 'cross my body, going

Over and over, and over and over again
Shot down like before and
Over and over, and over and over again
Another blank was scored, but
I stay awake, I sleep in a little while now
Yes I stay awake, and I sleep with you

Oh, h-oh, going
Over and over, and over and over again
Shot down like before and
Over and over, and over and over again
Another blank was scored and
Over and over, and over and over again
Seeking light and reason
Over and over, and over and over again
Through these desperate seasons

No, I wouldn't mind
I sleep in a little while now, now
Yes I stay awake
And I sleep with you...
