

## My Personal Song

The BossHoss

Don't need no medicine, no therapy, no pills -  
Dont need no kudos, no fortune to get my thrills

I don't want no good advice, no devil in disguise -  
I just need one thing to keep me alive.

I don't really care 'bout whiskey, woman of sin -  
Hey, but don't get me wrong, always count me  
But my personal power plant, my personal sun  
Makes my motor run - It's my personal song  
Goes like this

When I'm happy, when I'm blue  
When I'm lonely, when I'm with you  
When I'm angry, when I'm in love  
When there's nothing, when there's enough

This is my song - always in my head  
It makes me strong - I'm glad to have my song

I don't need no fancy clothes, champagne, big house,  
Don't need the VIP to make me happy  
No matter if there's snow, rain moon or sunlight  
My personal song makes me feel alright

So if you don't have one, find yourself your song  
And keep it in your head, till the cows come home  
Your personal power plant, your personal sun  
Makes your motor run -  
Your personal song  
Goes like this

When I'm happy, when I'm blue  
When I'm lonely, when I'm with you  
When I'm angry, when I'm in love  
When there's nothing, when there's enough

This is my song - always in my head  
It makes me strong - I'm glad to have my song
