

Wrong Song

The BossHoss

Well, I really tried to act so right
But I'm not able to reach you
When I speak the truth, then I swear to God
You claim I am lying to you

Now since I don't know how to get through to you
I'm gonna stop telling the truth
Now right is wrong and wrong is right
I'm gonna speak in tongues to you now

1, 2 and 4 u, I wrote a wrong song
I'ma telling lies, don't apologize so it won't go wrong
And from A to Z, it's reversed psychology
And in the lyrics I sing I'm using backward masking

And I'm gonna make some voodoo work on you
Until you do me like I want you to
And I'll give you my witchcraft spellbound brew
And a black cat bone too

But just to make it clear and be really sure
That you believe what I say and do
Now here's a little song that might sound wrong
But it'll turn it right for me now

1, 2 and 4 u, I wrote a wrong song
I'ma telling lies, don't apologize so it won't go wrong
And from A to Z, it's reversed psychology
And in the lyrics I sing I'm using backward masking

- (1) Suck in the beat, it's so sweet
- (2) The bass will whomp into your face
- (3) Guitar will blow your mind out far
- (4) Keys will set your mind at ease
- (5) Kickin' horns will knock you down by storm
- (6) The sharp harp will do it in the mix
- (7) We all sing along the wrong song, I hope I can count on

It's alright
