

## Higher Ground

The Bouncing Souls

Gonna make it work  
With what I know, do what I can  
I made this space  
I create for my fellow man  
I was up late last night  
With Frank's wild years on  
I must have done something right  
Now I got this song

We're gonna make it to  
Higher ground with you  
It's been years chasing these fears  
It's time to break through  
To the higher ground  
To the higher ground

Just like Matt, we've had it  
So let's drink some dead rabbit  
What would George Carlin say  
If he were drinking too  
We're gonna make it through  
With you  
We're gonna make it through  
With you  
To the higher ground

Somehow I knew it was right  
We'll find a way to make it  
Make it through this night  
To the higher ground  
To the higher ground  
To the higher ground  
To the higher ground  
To the higher ground
