

I was alone I decided to get up
I decided to get out
I picked up the phone and gave my boys a shout
Told em I'd be out around nine
No particular plan
Just whatever comes to mind

(Pete)
Bryan called me up and said
There's a show tonight
And do ya wanna go tonight
I'm giving my girl the night off
Cause I'm hanging out with Steinkopf
Whenever im down
I know where my friends can be found
Whenever there's a doubt
I just have to shout

He's my friend he's my alibi
My accessory to the crime
A bond that will never die
Till the end of time
Till the end of time

Another night and we got somewhere to go
Going out meeting up at the punk rock show
Where the air is hot and the music is loud
My kind of place this is my kind of crowd

And we'll be here
Till the night is done,
Loyal to my friends and sworn to fun

He's my friend he's my alibi
My accessory to the crime
A bond that will never die
Till the end of time
Till the end of time
Till the end of time
