

POWER

The Bouncing Souls

There's a power in the darkness
And peace comes with the night
We are stronger together
When we're searching for the light
Searching for the light

They wanna see us blind
Alone and paralyzed
Seeing through the lies
Find power in this dark
In this dark

Listen to your soul
And listen to your heart
This power will move a mountain
Or tear us all apart
Tear us all apart

They wanna see us blind
Alone and paralyzed
Seeing through the lies
Find power in this dark
In this dark

(Power in you)
In this dark
(Power in you)
In this dark
(Power in you)
In this dark
(Power in you)

They wanna see us blind
Alone and paralyzed
Seeing through the lies
Find power in this dark
In this dark
