

She Knows How

The Box Tops

She knows how to thrill me
She knows how to chill me
Knows how to kiss me like I wanna be kissed
Kisses like I just can't resist

Let me tell you right now, people
When it comes to lovin'
She knows how

She knows when to touch me
She knows when to reach out and clutch me
Love me sweet and tenderly
The girl can do almost anything with me

Let me tell you right now, people
When it comes to lovin'
She knows how

She knows how to keep me uptight
Knows how to make me want her day and night
Tell you [?] to put it [?]
She's out of sight

She knows how to thrill me
She knows how to chill me
Knows how to kiss me like I wanna be kissed
Kisses like I just can't resist

Let me tell you right now, people
When it comes to lovin'
She knows how
Yeah, she knows how
And she knows where
To thrill me
I said to chill me-hee
And to touch me
When to reach out and clutch me-hee
Love me sweet and tender...
