

Lightness out of Darkness

The Boxer Rebellion

I will overcome even when you say the hurt isn't done
I will overcome even when you say the hurt isn't done
And if these eyes can't see another day
I'll take all the love that they can never take away
And I will meet you in the light
From the rise in the morning till the death of the night

There's lightness out of darkness
When you lose your faith in everyone
There's lightness out of darkness
Out of darkness when you see the sun

I will overcome even when I know the hurt isn't done
And I will meet you in the light
From the rise in the morning till the death of the night

There's lightness out of darkness
When the world feels like it's against us
There's lightness out of darkness
When we don't see hope around us
There's lightness out of darkness
When the world you love is on the run
There's lightness out of darkness
Out of darkness when we see the sun

There's lightness out of darkness
When the world feels like it's against us
There's lightness out of darkness
When we don't see hope around us
There's lightness out of darkness
When the world you love is on the run
There's lightness out of darkness
Out of darkness when we see the sun
