Just u

Just u just u

Every day, I wanna be with you
Girl, thinking of you makes me smile without knowing
When I look at the ceiling at night
I draw out your face
I close my eyes but I can't sleep
You shake up my heart

Because of you
The reason I smile when I look at the sky
Cause with you
All day I think about you

Love is enough love is enough
I swear it's just u, I found the one and only you
Please be my girl you know
I'm connected to you
Let's hold hands now
(Take it to the bridge)

Just u, my heart keeps keeps keeps
Just u, pounding pounding pounding
Oh you, I only dreamed of this
Love you you you, my heart is just u

I can't believe it, you're so beautiful
I'm pinching my cheek to check again
Thankful for this dream-like reality

In my boring life
I'm thankful to know a person like you
Even the roads I walk on every day have new meaning
Just you, because it's you, it's love

Because of you
The reason I can smile even when things are hard
Cause with you
Happiness, you are my truth

Love is enough love is enough

I wanna hear your voice, my everything
Please be my girl you know
I'm connected to you
Let's hold hands now
(Take it to the bridge)

Just u, my heart keeps keeps keeps
Just u, pounding pounding pounding
Oh you, I only dreamed of this
Love you you you, my heart is just u

Dreamy, beautiful girl
Whatever you do, you're so pretty, even your heart
Everything is for you, forever never
I can't see a path to go on alone
Without you, who is my oxygen
I can't live without you
Baby girl

Just u, my heart keeps keeps keeps
