You're my only only one yeah yeah
You're my only only one

Yes, right now, you shine so much
The one making my heart race is you
Babe, why, babe, are you torturing me, yeah

The night I was tossing and turning at thoughts of you
The sound of the clock that tortured me only grew louder
I can confidently say in front of you, babe
I wanna be the only one
Right by your side
Tell me you feel the same

You're my only only only one
You're my only only only one
Fulfill my fantasy, my love
I'm your boy, I'll be standing next to you

My heart races just by your existence
Just say the word, I can run to you
If it's for you, I can do anything
Only for you

Let me lo u lo u lo u
Let me lo u lo u lo u
You just need to allow me, girl
Let me love let me love
Let me lo u lo u lo u
Let me lo u lo u lo u
You just need to allow me, girl
Baby love baby love

I wonder if you know how much I thought of you
Am I not in your heart?
I'm sure I am, I'm sure I am
I just hope it's not just my misunderstanding

Your feelings for me are not enough
But it's alright, I'm satisfied
I don't even expect you to love me
Love in return, there's no such thing
One way love, it's ok
I love you so much, I pray
I pray every day and wait
From tomorrow, just let me love u

You're my only only only one
You're my only only only one
Fulfill my fantasy, my love
I'm your boy, I'll be standing next to you

My heart races just by your existence
Just say the word, I can run to you
If it's for you, I can do anything
Only for you

Let me lo u lo u lo u
Let me lo u lo u lo u
You just need to allow me, girl
Let me love let me love
Let me lo u lo u lo u
Let me lo u lo u lo u
You just need to allow me, girl
Baby love baby love

You're my only only one
This is a melody for you, my fantasy
You're my only only one
Because you're the only one to fill me up

My heart races just by your existence
Just say the word, I can run to you
If it's for you, I can do anything
Only for you

Let me lo u lo u lo u
Let me lo u lo u lo u
