

Keep on Shining

The Brand New Heavies

Keep on shining, shining, shining, shining, shining, oh
yeah

Oh, I whisper softly in your ear
My sweet baby
Another perfect day begins when you're right here
And when you're lying next to me
What could be better than you?
It's coming over me again
My sweet baby
I got to work but it's so hard to leave you there
I can't help feeling it ain't fair
I'd rather be chilling with you

I'll be out at work, on my way
No matter what I do all day
You'll be there with me, in my head
Thinking about what we share
Cos you love me right, and I can see
Everything that this could be
And you're never far away from me
Reaching out to you, yeah

Cos everything it happens for a reason
The darkest night will make the brightest star
But baby, now it's gonna be the season
There won't be no looking back
A brighter light will shine on where we are

Keep on shining, shining, shining, shining, shining,
yeah yeah

Ain't it funny how it goes
My sweet baby
You hit a wall and think that life will stay that way
At least that's how it seemed to me
Was I so ready to lose?
Now I'm living life again
No turning back
And I ain't scared no more of what tomorrow brings
I'm taking off on brand new wings
Cos I'm going to spend it with you, baby

Keep on shining, shining, shining, shining, shining,
yeah yeah

I had to write this down today
My sweet baby
I turned a corner and I know you're there for me
And that's exactly where I'll be
Bringing it home to you, baby

Keep on shining, shining, shining, shining, shining,
yeah yeah
