The Brian Jonestown Massacre

I thought I could touch the stars
I lie alone at night
I don't know where you are
My face explodes
Teardrops into tears
And every second I'm not with you
Well it seems like years.

I've told you
How I love you
And need you
Will kill you
Yeah, yeah

I won't die
But I don't feel the same
I lie awake at night
Hoping to see you again
My face explodes
Teardrops into tears
And every moment I'm not with you
Well it seems like years.

I love you
I need you
Yeah, yeah
And I told you
That I'd kill you
Yeah, yeah
