### The Brian Jonestown Massacre

With only our wisdom to guide us  
We know where we wanted to go  
Picking up our guns and follow the path  
Through the forest we go

Oh we shall have no fear

If nobody's following us  
We got to keep calm in our head  
There's no time to worry or stop  
[?] they catch us, we're dead

Oh we shall have no fear  
We shall have no fear
