

So They Say It's Christmas

The Brian Setzer Orchestra

So they say it's Christmas time again
The calendar says December but it's wrong
Cause Christmas is the time
When lover pray divine
And people are meeting
And two hearts are beating

So they say it's Christmas time, I know
But I'll just keep pretending until they go
Cause if they say it's Christmas
I'll think you're here with me
If they say it's Christmas time again

I wonder when your Christmas card will come
I bet it's that same old winter one
Where people are happy
And full of that joy
The spirit of giving and loving and living

So you know when Christmas rolls around
I just can't help but feeling kinda down
Cause you're my Christmas time
You're who I'm thinking of
When they say it's Christmas time my love
It's Christmas time

So you know when Christmas rolls around
I just can't help but feeling kinda down
Cause you're my Christmas time
The one I'm thinking of
When they say it's Christmas time my love
My love

It's Christmas time my love
It's Christmas time my love
