

# Wasting Time

The Briggs

Thought for years  
that it would never come to this  
I solved my problems  
with the throwing of my fists  
But I'm nowhere now,  
not sure how but I really fucked up now

All this time what I thought wasn't true  
Had seemed to be a lie  
But I don't know what to do  
And it's not just me and now I can see,  
That I really fucked up now,  
I really fucked up now

We're still wasting  
Wasting time  
We're still wasting  
Wasting time
