Lab Rats

The Bronx

Say goodbye to your lonelier side
Come out and meet your new friends
Cross the plain into no man's land
Need to know where you stand
I know you think you don't need any help
But please consider the source
Some scarred from a social divorce
Experiments in the malls

Prove you can lie
Please reproduce this tear drop from your eyes
Prove you can cry
Convince us you're alive

They chose to waste
All of their time testing you
Well you froze in place
Like scared animals always do
Oh, finally we can see through

Wave goodbye to your crazier side
Just get over yourself
Run around with your neighbors upstairs
Take yourself off the shelf

Prove you can lie
Please reproduce this tear drop from your eyes
Prove you can cry
Convince us you're alive

They chose to waste
All of their time testing you
Oh you froze in place
Like scared animals always do
They chose to waste
All of their time testing you
Oh you froze in place
Like scared animals always do
Finally we can see through
Oh, finally we can see through

Cover yourself from this quick as you can
Silently draw all the blood from your hand
Cultivate, regulate, gather no moss
Let's just pretend that we're lost

They chose to waste
All of their time testing you
But you froze in place
Like scared animals always do
They chose to waste
All of their time testing you
But you froze in place
Like scared animals always do
Finally we can see through
