

# Peace Pipe

The Bronx

(Oh-oh-oh)  
Take a ride on this misfit summer-wind  
(Oh-oh-oh)  
Let it take you somewhere you've never been  
Go fuck yourself

(Oh-oh-oh)  
Time flies when you don't know who you are  
(Oh-oh-oh)  
A cold case or a cold-blooded superstar  
It's way more fun when you're on the run

I see danger ahead  
But you're not interested

Once in a lifetime's back again  
We're standing in the graveyard and you're whistling  
Are you just gonna keep right on pretending?  
Are you just gonna keep singing the same song  
Until the reaper comes along?

(Oh-oh-oh)  
Turns out the present is impossible  
(Oh-oh-oh)  
So watch out, the future is unstoppable  
It's way more fun with a loaded gun  
Yeah

I see danger ahead  
But you're not interested

Once in a lifetime's back again  
We're standing in the graveyard and you're whistling  
Are you just gonna keep right on pretending?  
Are you just gonna keep singing the same song  
Until the reaper comes along?  
Until the reaper comes along?

There's no problem here  
Looks like the coast is clear

Once in a lifetime's back again  
We're standing in the graveyard and you're whistling  
Are you just gonna keep right on pretending?  
Are you just gonna keep singing the same song  
Until the reaper comes along?
