

Angeline

The Brothers Comatose

One, two, three, four

If I had a million dollars
I'd buy a rocket and aim it for the stars
Fall in the orbit around the moons of Mars
And we could leave this whole world behind

If I could breathe underwater
I'd build a house on the bottom of the ocean
We could dance and make love in slow motion
While the fish all swim around

The more I learn the less I know
I won't leave your side, I can't let you go
And my will is strong and the moon is bright
I'm gonna lay you in my arms tonight

Angeline
Make me or break me darling, get you off my mind
Hold me close, Angeline
Come and take my hand little darling, step into the night

Woohoo Hoo
Woohoo Hoo
Woohoo Hoo
Woohoo Hoo

If I had a million dollars
I'd buy a rocket and aim it for the stars
Fall in the orbit around the moons of Mars
And we could leave this whole world behind

If I could float above the clouds
I'd lift you up and watch the rain fall down
Spend the night with your feet off the ground
And sail into the morning light

The more I learn the less I know
I won't leave your side, I can't let you go
And my will is strong and the moon is bright
I'm gonna lay you in my arms tonight

Angeline
Make me or break me darling, get you off my mind
Hold me close, Angeline
Come and take my hand little darling, step into the night

Woohoo Hoo
Woohoo Hoo
Woohoo Hoo
Woohoo Hoo

Woohoo Hoo
Woohoo Hoo
Woohoo Hoo
Woohoo Hoo
