

Brothers

The Brothers Comatose

Me and my brother, and my brother and me
We were two lost kids that couldn't agree
Well the time changes people you see
Like me and my brother, and my brother and me

Whoa, we were so different then
Fightin' and yellin'
Couldn't ever really get along
Until we started singin'
And playin'
These songs

We were two boxers in a ring
And we fought about most everything
Couldn't figure out brotherly love
Until guitars took the place of our gloves

Whoa, we were so different then
Fightin' and yellin'
Couldn't ever really get along
Until we started singin'
And playin'
These songs

We were kings in a castle buried in the sand
Until we set forth to explore this land
Now we sail the roads and we drive the seas
There ain't nothing come between my brother and me

Whoa, we were so different then
Fightin' and yellin'
Couldn't ever really get along
Until we started singin'
And playin'

And singin'
And playin'
And singin'
And playin'
These songs
