

## A Better Way

The Browning

I wish there would never be a next time  
No more people being killed by Sin  
I wish there would never be a next time  
No more people being killed  
Never forget them  
Never forget tragedy  
Selfishness, fueled by greed  
Human plague, our disease  
We destroy, everything  
Just to watch it fade away

It's time to find a better way  
This is our home, We are all the same  
It's time to find a better way  
But I know that things will never change

I wish there would never be a next time  
No more people being killed by Sin  
I wish there would never be a next time  
No more people being killed  
Society, so corrupt  
Suffering, ignore the screams  
We destroy, everything  
Just to watch it fade away

It's time to find a better way  
This is our home, We are all the same  
It's time to find a better way  
But I know that things will never change
