

Black Hole

The Browning

Your soul is a black hole
Stay away from me
Stay away from me

The bright light in your eyes has died
No one's around and you wonder why
I can't escape your overwhelming pull
Your soul is a black hole

Stay away from me
Stay away from me

(I don't know you and I never did
Are you proud of the life that you live?)
I don't know you and I never did
Are you proud of the life that you life?

You once held a great warmth inside
It's been fading from the start
Now here I stand losing my mind
Holding your cold frozen heart

I don't know you and I never did
Are you proud of the life that you live?
Are you proud?
