

# Death Warp

The Browning

Death warp  
Death warping

I will not be bound within the walls of sheep and man  
The creator will not stay my hand  
I command the power of immortal life  
I command the power to bend the frame of time

Forever locked behind the gate of the beholder  
I've made a pact with the infernal

I am eternal  
I am eternal  
The rules of death do not apply to the infernal  
I've ripped out the beholder's eye

Death warp  
Death warp

An endless cycle of doom  
Filled with death and gloom  
Reality is consumed  
An endless cycle of doom

I will not be bound within the walls of sheep and man  
The creator will not stay my hand  
Forever locked behind the gate of the beholder  
I've made a pact with the infernal

I am eternal
