

## Dragon

## The Browning

I feel nothing inside of me  
I am I am empty empty  
I feel nothing inside of me  
I am I am empty empty

I will be immortal  
I've walked that path it's a dark one  
The dragons' flames will consume you

Blackened is the sun  
You think you are the chosen one  
'Til death takes everyone and everything  
Immortality is darkness

I feel nothing inside of me  
I am I am empty empty

Flames fall from the sky  
Alone in this world that you destroyed

Immortal  
I've walked that path it's a dark one  
The dragons' flames will consume you

I feel nothing inside of me  
I feel nothing inside of me  
I am I am empty  
Empty  
Flames fall from the sky  
Alone in this world that you destroyed
