

Everlost

The Browning

Everlost

I am lost, it's always dark, I was taken from the light
Save me from myself, turning blind
I am lost and so is my mind
Save me from this life, forever lost

Everlost

But that fate, I am confined
I am a prisoner of my mind
Save me from this doubt
I need to find a way out

I am lost, and so is my mind
Save me from this life, forever lost

When seconds turn to years
I feel that nothing matters
When I can't fight my fears
I question all the answers

When seconds turn to years
I feel that nothing matters
When I can't fight my fears
I question all the answers
