

## Fallout

## The Browning

The sky is black and red  
Bloody ruins, everything is dead  
Scorched earth there's nothing left  
There's nothing left

I have seen with my own eyes  
The greed and the lies  
And I don't know why I'm trying

We live in the fallout  
Too blind to see our downfall  
We will slowly fade out  
Block out the sun to end it all

The land of graves  
Oceans red, filled with disgust

I have seen with my own eyes  
The greed and the lies  
And I don't know why I'm trying

We live in the fallout  
Too blind to see our downfall  
We will slowly fade out  
Block out the sun to end it all  
We live in the fallout  
How did it come to this  
We will slowly fade out  
Apocalypse in total eclipse

Life as we know it is in ashes on the ground  
Burnt to the ground  
Not a soul to be found

We live in the fallout  
Too blind to see our downfall  
We will slowly fade out  
Block out the sun to end it all  
We live in the fallout  
How did it come to this  
We will slowly fade out  
Apocalypse in total eclipse
