

# Fearless

The Browning

We will not back down

The time has come  
The time has come to be one with the sun  
We must be the resistance  
We must question our existence

I refuse to bow  
I will take the vow to stand my ground  
I was born to be fearless  
We must fight for what's within us  
We will not back down

We will not back down  
I hear no man no God

We lost our home  
I will walk into the darkness unknown  
I was born to be fearless  
We must fight for what's within us

I stand alone face to face with death  
I will atone with my final breath  
I stand alone face to face with death till there's nothing left  
I stand alone face to face with death till there's nothing left

We will not back down
