

## Final Breath

The Browning

Avoid the truth while we live a moment from death  
Content with corruption  
Accept the deception

There's nothing left on this planet but misery  
Regress any progress  
Violence in a vortex

With my final breath my lungs will fill with fire (FIRE)  
When there's nothing left the earth will sing in silence  
(SILENCE)

Eyes to the sky while we wait to face the light  
In time we are frozen  
Blinded by destruction  
There's nothing left on this planet but misery  
Regress any progress  
Violence in a vortex

With my final breath my lungs will fill with fire (FIRE)  
When there's nothing left the earth will sing in silence  
(SILENCE)

(We have no choice)  
Fire consume the masses  
Respect for life collapses  
We have no choice but to rest in the ashes  
Burn

BURN

(With my final breath my lungs will fill with fire)

With my final breath my lungs will fill with fire (FIRE)  
When there's nothing left the earth will sing in silence  
(SILENCE)
