

Gravedigger

The Browning

Don't follow me
Make your own path
You dug your grave with your own hands
You may not know where to begin
But if you don't start now
Then you're already at the end

We slowly climb
Just to slowly rot and waste away
Look into the vultures eyes
What will you see?

Will it be too late? [2x]
To find your destiny
It is never too late to try

You dug your grave [5x]

We slowly climb
Just to slowly rot and waste away
