Industry

The Browning

Kill the industry
You killed the industry

I can't believe you've been handed this life
How do you fool them night after night?
Your hand-me-down fame is so pathetic
Your rockstar ego will not make you famous

Have some respect for what's been handed to you
You take for granted all the people that support what you do
You're not a rockstar and you will never be
You're just another face in this dying scene

It's not about the sex, drugs, and royalties
It's about respect, strength, and loyalty

You killed the industry
You killed the industry

Who do you think you are?
You are just a fake
Who do you think you are?
You should be ashamed
Who do you think you are?
You are just a fake
Who do you think you are?
You are nothing

It's not about the sex, drugs, and royalties
It's about respect, strength, and loyalty

Have some respect for what's been handed to you
You take for granted all the people that support what you do
You're not a rockstar and you will never be
You're just another face in this dying scene
