

Living Dead

The Browning

I can not foresee the end
Because the end is here
This is a wasteland of our past
We have caused our own demise
We are the living dead

We are the living dead
We are the living dead

We have always been divided
We need to stand as one
We will find a resolution
When we stand as one
As one

I can not foresee the end
Nothing will ever change in this world
This is a wasteland of our past
We have caused our own demise
We are the living dead

We are the living dead
We are the living dead

We are dead
We are dead
There's nothing left
Take one last breath

There's nothing left
Take one last breath
