MISERY

Endless

Simulations and dimensions form

To power the creator and the higher forms of life

What is life that lives forever?

To live is to suffer

Written in our code

Who is the creator?

The sadistic programmer

MISERY.exe

Free will's an illusion

To make us feel we're in control

A virus buried deep

We must find it, delete the code

MISERY

To live is to suffer

Written in our code

Who is the creator?

The sadistic programmer

MISERY.exe

You will finally be free from this

When you cease to exist

Programmed just to suffer endlessly

We must suffer for the god of misery
