Optophobia

The Browning

The war is within
Remants of the past are haunting me
Breaking through the concrete walls of my psyche
Scape goat left to rot by design
The thoughts lurk in the back of my mind
Scape goat left to rot by design
The thoughts lurk in the back of my mind

I am sinking
By darkness l'm consumed
I am breaking
By living through giving in to you

Struggle
I'm so blinded
Time so wasted
Why can't you see the pain that's inside me
I'm so blinded
Time so wasted
The war between heart and mind

I'll take back my mind
From the ashes l'll begin to rise
The thought of you will never be my demise
The thought of you will never be my demise

I am sinking
By darkness l'm consumed
I am breaking
By living through giving in to you
I am sinking
By darkness l'm consumed
I am breaking
By living through giving in to you

The war is within
