

# Soul Drift

The Browning

Soul drift

Soul drift through the void that's in my head  
Come to grips with death and the end  
Echoes of time, a fading sound  
In the abyss, our souls unbound

Endless  
Eternal  
No more  
Never-ending darkness

In the darkness, we all ascend  
A silent whisper, my only friend  
Soul drift through the void that's in my head  
Come to grips with death and the end  
Soul drift

Soul drift

Endless  
Eternal  
No more  
Never-ending darkness

I will never fear death  
Soul drift
