

# Standing On The Edge

The Browning

Standing on the edge  
Questioning what life has brought  
Limitations hold you back  
Self doubt is all you've got  
This appears to be the end  
But it may be a new beginning

Standing on the edge  
Live for your future  
Remember your past  
Reach for your dreams  
You have not reached the end  
You have not reached the end

Standing on the edge  
Questioning what life has brought  
Limitations hold you back  
Self doubt is all you've got  
This appears to be the end  
But it may be a new beginning

We have not reached the end  
We are standing on the edge of the end  
We are standing on the edge of the end
