

Time Is Now

The Bruisers

Time is now how much more do you need
To stand up and fight for what you believe
Because in this life you go around just one time
It could all end tomorrow so open your eyes and

Keep on fighting
For what you believe
Never give in

The sure things in life are that you live and you die
You're remembered by what you leave behind
The mark that you leave might carry you on
Or be buried with you then you're dead and gone

Keep on fighting
For what you believe
Never give in

Existence is a struggle well it is quite hard
We take it all for granted till it's in our yard
And then you long for the wasted time that you have lost
There's no going back cause you had your shot

Keep on fighting
For what you believe
Never give in
