

You Misunderstand Me

The Buckingham

When I talk to you about lovin' you
You don't realize the way I pieced my eyes

You misunderstand me, baby
When I talk of lovin' you
If you wanna land me, baby
Then you'd better think about it too
I'll do anything for you, dear
Please try and think about holding me near to you
Holding me near to you

You don't feel the pain from this constant strain
And I can't find no way for you to see what I'm sayin'

You misunderstand me, baby
When I talk of lovin' you
If you wanna land me, baby
Then you'd better think about it too
I'll do anything for you, dear
Please try and think about holding me near to you
Holding me near to you

You're my baby, and I'll never let you go
My baby, and I'll always love you so
My baby, and I'll never let you go
My baby, and I'll always love you so
