

You

The Buckingham

Whispering only birds could hear
Thinking only of you
Sighing softly I see your face, again

Stepping through gentle pools of rain
Rippling up our reflection
Will we be as we are today, my love

Time has brought us together
This we feel with our hearts
Living seems all the better
Love is like a flowers start

Time has brought us, together
This we feel, with our hearts
Living seems, all the better
Love is like a flowers start

Time has brought us together
This we feel with our hearts
Living seems all the better
Love is like a flowers start

Time has brought us, together
This we feel, with our hearts
Living seems, all the better
Love is like a flowers start

Whispering only birds could hear
Thinking only of you
Sighing softly I see your face, again
