

# Pressure

The Bunny the Bear

I am better than this  
We can do better than this  
If it's not too much

Too much pressure on me  
Expectations  
Living out our dreams  
Won't someone come save me?  
How I wish it could be me

Take off the tourniquet  
I'm suffocating  
Reach out and cut my throat  
I'm dying for this  
Bleeding out  
Give it everything I have to give  
I've got nothing left but energy  
It's the enemy of me

I am better than this  
We can do better than this  
If it's not too much

Too much pressure on me  
Expectations  
Living out our dreams  
Won't someone come save me?  
How I wish it could be me

How I wish it could be me  
How I wish it could be me  
It could be me  
How I wish it could be me  
It could be me  
How I wish it could be me  
It could be me

I am better than this  
We can do better than this  
If it's not too much

Too much pressure on me  
Expectations  
Living out our dreams  
Won't someone come save me?  
How I wish it could be me

Too much pressure on me  
Expectations  
Living out our dreams  
Won't someone come save me?  
How I wish it could be me
