## The Butterfly Effect

You You, Like it wont  
through me, me that wont heal

No nothing hits me like you do  
when its all you are

(right)

Try Try, but you wont find  
your witness to my crime

No nothing cuts me like you do  
when its all your fault

its you, just you and me, oh yeah  
its true, its just you, and me unfortunately

Lie Lie, but you wont hide  
the true true, no its not like you

No nothing hurts me like you do  
when its all you got

its you, just you, and me oh yeah  
its true, its just you, and me unfortunately

why u do the things that you do oh what u doing to me

'Cause its like you dont care, no you dont care, so you  
dont care, about me, whats new?

its just you, its just you

all a circus

make it stop make it stop make it stop.
