You You, Like it wont through me, me that wont heal

No nothing hits me like you do when its all you are

(right)

Try Try, but you wont find your witness to my crime

No nothing cuts me like you do when its all your fault

its you, just you and me, oh yeah its true, its just you, and me unfortunately

Lie Lie, but you wont hide the true true, no its not like you

No nothing hurts me like you do when its all you got

its you, just you, and me oh yeah its true, its just you, and me unfortunately

why u do the things that you do oh what u doing to me

'Cause its like you dont care, no you dont care, so you dont care, about me, whats new?

its just you, its just you

all a circus

make it stop make it stop make it stop.
