## **Filling Silence**

## **The Butterfly Effect**

Safe... Only for you On the edge of the dark Where no one can find you Breathe... extinguish the spark Are you hiding from something No self... Reflecting in scene When I feel you lost inside me Darkness blinds me now that I feel you, i've Now that I feel you, I Exit the empty Exist... where nothing was found Where no one can find me I'll go... softly without a sound Will I find you lost inside me Silence i'll be Now that I feel you, I Now that I feel you, I... Drifting inside Closing my eyes Till the pain died Given in to you I've given in to you, I... ...feel you now... And I feel you, I... You... I feel you... I... Feel you, I.... (This is the bit where Clint sings REALLY high like an angel!) Feel you..... Now I have gone in to you All that remains I know.... Is the silence thats filling me now .. Can you hear me.... NOW! Empty Craving?? Filling Silence..
